

I think Airlines should have to make it public what happens to animals while they are in the care of the airlines. Peoples pets are a part of there family. I am a pet owner and I would never let my pets be transported on a airline because there are so many bad things that can happen while they(pets) are not under supervision.And no one can treat my pet like I do. I think it is unhumane to let animals in crates become lost,hurt or die from the airlines not taking the proper percautions to make sure they will stay safe and healthy until they reach there owners arms once again.Thank you for letting me voice my opinion.
